

## **AlSCO Acquires Admiral Linen and Uniform Rental Service**

### **This Enables the Company to Better Serve Customers throughout Texas**

Salt Lake City, UT – On April 20, 2015, AlSCO Inc., a fourth generation family owned and run linen and uniform rental company, announced its acquisition of Admiral Linen and Uniform Service, giving the company the ability to better serve its customers throughout Texas and parts of Oklahoma.

“Admiral’s long success can be attributed to many of the same qualities that have kept AlSCO growing and thriving for more than 125 years. These include a long heritage of family ownership and management, along with a deep respect for employees and customers,” said Jim Kearns, CFO.

According to Steve Larson, Vice President of North American Operations, “This acquisition adds eight processing plants to our 73 existing plants in North America, expanding our geographic coverage significantly. These include linen, industrial uniform, and healthcare processing plants in Houston, Fort Worth, Wichita Falls, and Corpus Christi.”

Admiral will continue to operate under the Admiral brand name, providing the same high quality service it has always offered. “AlSCO has over 125 years of experience and Admiral has over 66. As partners, we have almost 200 years of combined experience, and that’s something unique that we can offer our customers,” said Jim Divers, Director of Sales and Marketing.
